

# HIGH POWER XENON BEACONS (XHP Range)

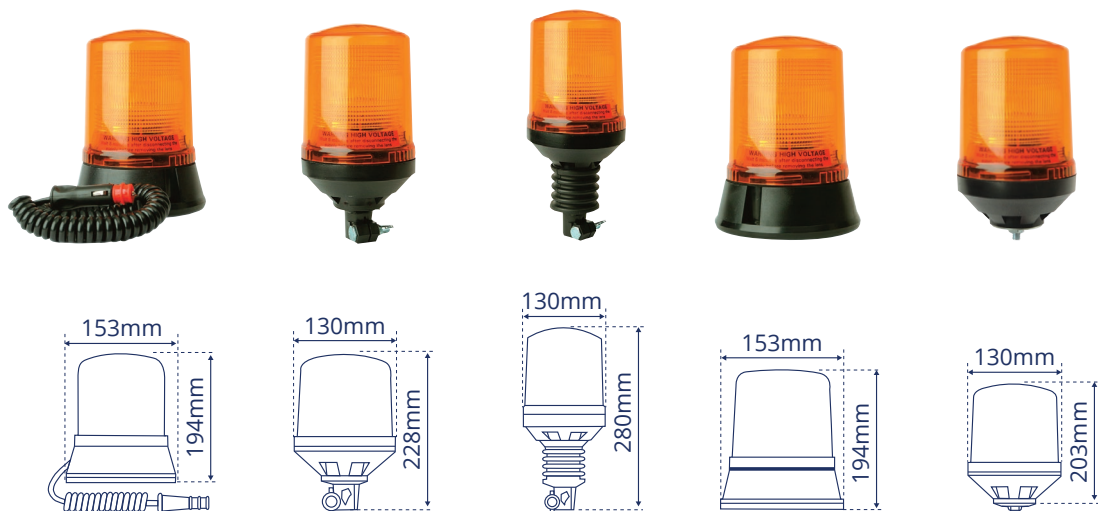

Our high power xenon beacons feature advanced fresnel optics coupled with a 14 Watt high intensity xenon discharge lamp which provides ECE R65 approved visual warning in single and double flash modes.

## Main Features

- Dual Voltage (12/24V)
- 70mph rated magnetic version
- IP56 rated ingress protection
- Built-in option of either single or double flash
- Nominal flash rate: 125 per minute
- Current consumption: 2.0A @ 12V / 1.0A @ 24V
- -30°C to +50°C extreme temperature reliability

## Lens Colours Available

Part No.	XHP020	XHP030	XHP040	XHP050	XHP060
Fitting	Magnetic	DIN	Flexi DIN	3 Point	Single Point
Weight	1.4KG	0.9KG	1.0KG	0.8KG	0.9KG

ECE R65 Approval is appropriate to XHP range when beacons are operated in a single or double flash mode and fitted with either an Amber or Blue lens.
